2. Installation Procedure

Note: If you have installed the Wireless Adapter driver & utility before, please uninstall the old version first.

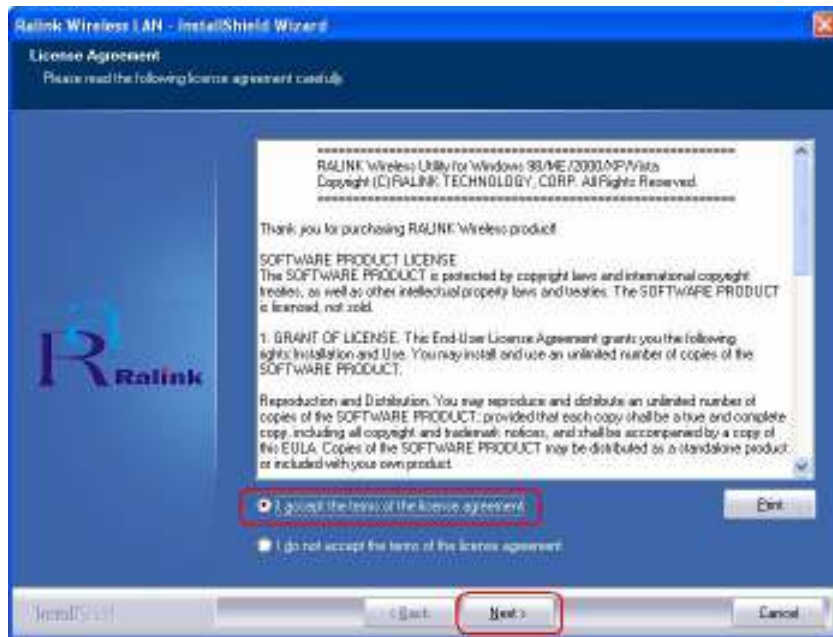

2.1 "Found New Hardware Wizard" will be displayed after the USB Adapter is installed. Please click **Cancel** to continue.

2.2 Insert the Installation CD into CD-ROM drive then windows below will appear. Click “Install Driver & Utility” to begin device driver installation.

2.2.1 For Windows XP and 2000

Step1: Please read the following license agreement. Select I accept the terms of the license agreement and click Next to continue.

Step1.1: In Windows XP, You can choose to configure the adapter through the Microsoft

Zero Configuration Tool or the **Ralink Configuration Tool**. It is recommended to choose the **Ralink Configuration Tool** for the adapter. Click **Next** to continue.

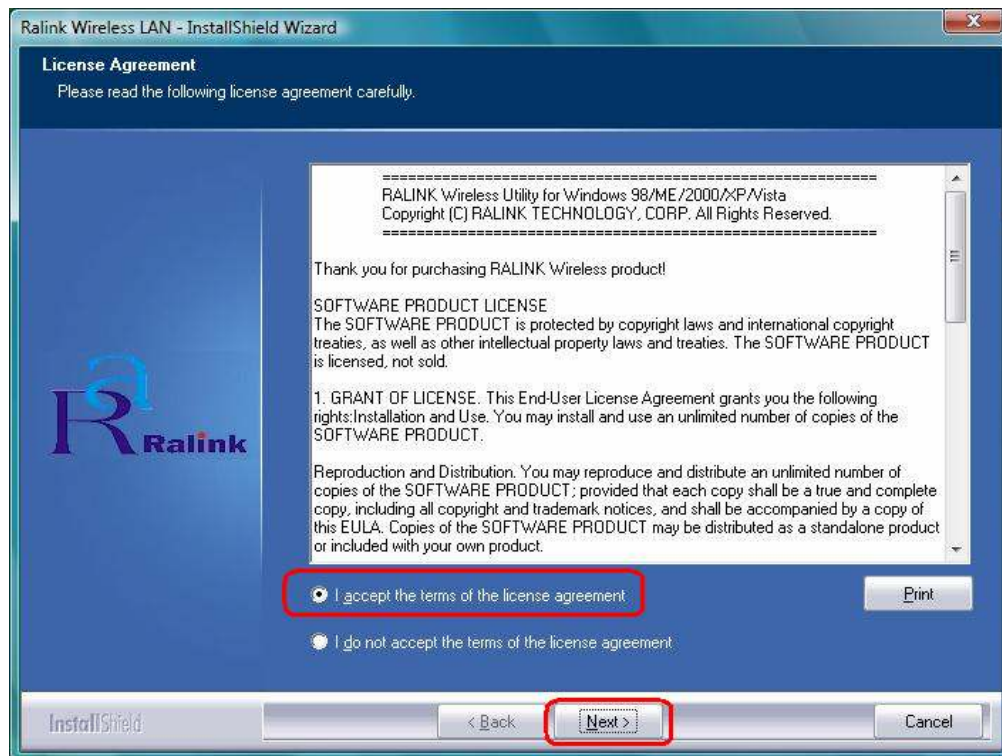

Step1.2: If you need better performance, please choose **Optimize for performance mode** to enable **Tx Burst mode**. Or you can choose **Optimize for WiFi mode** to run in standard wireless network.

Step2: Click **Install** to begin the installation.

Step3: After the setup wizard has successfully installed wireless LAN, click **Finish** to exit the wizard.

2.2.2 For Windows Vista

Step1: Please read the following license agreement. Select **I accept the terms of the license agreement** and click **Next** to continue.

Step2: Click **Install** to begin the installation.

Step3: After the setup wizard has successfully installed wireless LAN, click **Finish** to exit the wizard.

2.3 For detailed information of Device Driver & Utility installation, please refer to the user's manual included in the Installation CD.
